

# # ENTRE PRE NEURIAL LAWYERS

LexCase

# The Firm in a few words

LexCase has been founded in 2009 as an entrepreneurial project: to establish a multidisciplinary law firm, present in Paris, Lyon and Marseille and having close links with foreign law firms.

Regional, national and international, LexCase relies on the proximity with its clients with a view to excellence.

On the strength of its recognized expertise, LexCase continues to grow by acquiring leading-edge experts to advise and support its private and public clients in the implementation and success of their various projects.

With LexFormation, LexCase experts regularly conduct professional legal training to support the use of law and best practices to its clients.

The firm created « Fondation LexCase », hosted by the Fondation de France. Through this initiative, the Firm joined the international collective 1% for the Planet, pledging 1% of its turnover to provide financial and operational support to projects run by associations dedicated to the environmental cause.

## Regional, national & international, LexCase assists you closer to your projects

### Complementary skills

LexCase has responsive, available and expert teams offering a broad range of legal competences close to your projects.

### Privileged partners

LexCase has an informal network of independent foreign law firms, enabling a rapid and pragmatic response to local issues and cross-cutting international solutions.

### Specialized correspondents

In areas requiring specific sector local expertise and in-depth knowledge of the regulatory environment and authorities in other countries, LexCase has good working relationships with specialized lawyers in a number of countries.

# Our expertises at the service of your projects

LexCase intervenes in all areas of public and private business law, both in litigation and in consulting.
